OCTOBER REPORTS MADE IN BOARD MEETING TODAY

Reports of divisions for October
were presented at a meeting of the
Board of Agriculture and Forestry this
afternoon.

Dr. V. A. Norgaard, veterinarian,
made a special report to denounce the
practice of some dairy owners in keep-
ing cattle that have reacted to the
tuberculin test, thereby subjecting
not only their own healthy stock, but
the cows of those who have destroyed
their own reacting animals to the dan-
ger of infection. Dr. L. N. Case, the
assistant veterinarian, reports that
only four cows reacted out of 1571
head tested last month.

E. M. Ehrhorn, entomologist, among
other things liable to introduce pests
mentions "a lonely apple" found
among some vegetable seeds and
herbs from Portugal. "It is just in
such material," he writes, "that some
pest could come into the territory."
A large number of parasites for the
house, fruit and horn flies were lib-
erated and the receipt of useful parasites
from Fredk. Muir on October 9 is re-
ported.

David Hughes, acting superintend-
ent of forestry, reports a distribution
of 422 plants to the general public
and 800 to corporations in October.

G. K. Harrison, hydrographer, tells
of normal weather since the great
storm of September 22-27, and gives
particulars of the flood damage in
Kauai from that storm.

Morning on CHANGE

Little business was recorded on the
stock exchange sheet this morning.
Reported sales indicate an advance in
McBryde of 1/4 point for a total of 110
shares in four unequal lots, the price
being 5 1/2, and a decline of 1/4 in Olaa
shown in a sale of 200 shares at 5 1/2.
On the board Hawaiian Commercial
opened unchanged at 33 1/2 for 30
shares; followed by a sale of 5 shares
at 3 1/2 less. Mutual Telephone declin-
ed 1/4 to 18 1/2 for 17 shares.

The petition of Mrs. Agnes Bennett,
who is seeking a divorce from Ira
Bennett, of San Francisco on the
ground of non-support, was returned
today as having been served on the
libellee. The couple were married at
Oakland May 18, 1910, by Judge Quinn
of that city.

HARBOR BOARD INDORSES PLAN TO ENLARGE BAY

Idea of Chas. R. Forbes Proves Popular With Commissioners —Well Received Elsewhere

Superintendent Charles R. Forbes' plan for changing the west shore line and materially increasing the size of Honolulu harbor, in connection with the dredging of the Kaihi channel, was endorsed by the board of harbor commissioners at its meeting this morning. James L. McLean and Joseph Sheedy, vice-president and general manager respectively of the Inter-Island Steam Navigation Co., also gave their approval and a representative of the Chamber of Commerce announced he would present the plan to the merchants with recommendation for its endorsement.

As mapped, Forbes' plan is to dredge the harbor along Sand Island back to a straight line extending almost from the point beyond the lighthouse to a point toward Kaihi. This would still leave the narrow entrance to the Honolulu harbor, and would necessitate the removal of the lighthouse and the quarantine wharf to points further west and south. It would increase the expanse of deep navigable water in the harbor by approximately 75 acres, said Forbes, and would give a straight line of bank along the western side about 3200 feet in length, with ample room for a bulkhead pier extending the entire distance. The largest ships could use this bulkhead wharf, he explained, and still leave much more space for navigation than the port now possesses.

At the request of the American-Hawaiian Steamship Company the commission authorized Chairman Forbes to order a 14-inch hawser for use at the new Kulo bay wharf at Hilo. The steamship company explains that under present conditions there it is found advisable to hold vessels out some distance from the pier when they are not actually engaged in working cargo. The company says that if the hawser is provided it can make regular use of the new pier, sending the Kentuckian there early next month, and one vessel every fortnight thereafter, making it a regular port of call.

A large number of bids for the construction of the new Kulo bay wharf shed, for its paving and the supplying and installation of loading machinery were opened this morning, though the tabulated totals were not completed until a late hour this afternoon. To enable tabulation of these and the award of the contracts the board took a recess until 7:30 o'clock this evening, when the further business of the weekly meeting will be undertaken.

CARDS AND CROSS ARE USED TO ADVANTAGE BY AN ALLEGED "HEALER"

A pack of playing cards and a small cross were much in evidence against the so-called healing practiced by Joseph Rodriguez, who this morning was assessed fines amounting to \$250 following his conviction upon a charge of engaging in the practice of medicine without first having secured a license. A delegation of poor and afflicted Portuguese was victimized by Rodriguez, who is alleged to have done a flourishing business until brought to justice by Captain of Detectives McDuffie. Rodriguez devoted his energies to treating sufferers from rheumatism, employing the cards in a series of incantations before the uplifted cross. Later in the course of the treatment, he administered a compound composed of crushed water-cress, oil and whisky.

The patient was later obliged to submit to a massage in which shark oil was applied, for which Rodriguez is declared to have demanded payment ranging between \$15 and \$50 for each treatment.

Steffanson, the Canadian explorer, is marooned on the ice of Herskell island.
